## CV Simon Klüttermann

I strongly suggest not reading this here, since this is just a port of my better (online)

CV, which you find at <a href="http://www.psorus.de/s/cv.html">http://www.psorus.de/s/cv.html</a>

Credit Points

Points

These grades represent 120

credit points(achieved in 1

year), of which 60 are needed

for a masters degree in

germany. In practice this means
that I could have graduated as
a theoretician or as an
experimentalist (with mutually
exclusive courses)
